

PRESENT

## MEET THE EXPERTS SESSION FOR PATIENTS

### **BRIDGING THE GAP 2010** HEMATOLOGIC MALIGNANCIES

FEBRUARY 5, 2010

Clinical Research Center Auditorium, MD 11, National University of Singapore  
10, Medical Drive Singapore 117597  
5:00 p.m. – 7:00 p.m.

Haematological malignancies are cancers arising from blood cells in the bone marrow (leukemia) or immune cells in the organs involved in immune response such as lymph nodes and spleen (lymphoma). Meet the experts in this field from renowned institutions and take this golden opportunity to interact with our experts with your questions. Topics will include:

**1) Treatment and supportive care in myeloma**

*Dr. Wee Joo Chng, National University Cancer Institute, Singapore*

**2) I was told I have high risk acute myeloid leukemia, what is this and how will I be treated?**

*Dr. Martin Tallman, Northwestern University, Chicago, USA*

**3) I have just completed my bone marrow transplant treatment, what do I need to look out for (post transplant care including late complications and immunity/vaccination)?**

*Dr. E.J. Shpall, M.D. Anderson Cancer Center, Houston, USA*

**4) I have relapse Hodgkin's lymphoma. What are my options?**

*Dr. Anas Younes, M.D. Anderson Cancer Center, Houston, USA*

**5) There are so many different types of lymphomas, which one do I have and does it matter?**

*Dr. Morton Coleman, Cornell University, New York, USA*
